

Instant Digital Downloads Powerful eCommerce websites

Excellent for online eTicket sales or digital music download

Automatically sell and reserve tickets online on **YOUR OWN WEBSITE** for your event where payment is instantly received and the user can download their tickets online from any computer. The system will block off sold seating and the purchaser can access this ticket immediately or later, in the case of loss on the users part. The system is automatic, secure and fool proof.

Why IDC the Instant Download Shopping Cart?

Simply put the IDC is a powerful eCommerce Tool providing you the ability to sell online.....

Physical Products *(any item that you can sell with a physical shop but without the need for shop rental space)*

Music Downloads *(sell music downloads online excellent opportunity for musicians to sell their music online without the need for large multi national sellers and their fees. Cut out the middleman between you and your fans)*

eTicket Downloads *(sell tickets for events securely without extra fees)*

IDC eliminates the need to outsource your events ticket sales by selling online direct from your existing website or linked into a website within your control

This will save you money directly by cutting out the middle man and their sales commission which you can either pass onto the customer by reducing the price of ticket (but not your price) or you can add to your profit per ticket sale.
